

Mr. Steve Parker  
President  
CLECAT (European Association for Forwarding, Transport, Logistics and Customs Services)  
Rue du Commerce 77,  
1040 Brussels  
Belgium

Barcelona, 3 october 2019

Dear Mr. President,

We the Spanish Federation of Freight Forwarders. Organization for Logistics, Transportation and Customs Representation (FETEIA-OLTRA) have recently celebrated our biannual Congress.

In this event, most of the Freight Forwarders, Logistics Operators and Customs Representatives of Spain have participated and as usual we have taken the opportunity to discuss the issues that concern us the most and we have reached a series of conclusions, which I have the honor to attach to you.

As you can see, there are 16 conclusions, one of which whose development and solution correspond to CLECAT and that is why we would like to BE GRANTED AN INTERVIEW to be able to expose personally the problem that arises. Specifically, and in reference to CLECAT, I would like to transcribe this conclusion:

- Request our European organization, CLECAT, to address the D.G.-TAXUD to harmonize customs procedures in order to avoid comparative grievances between the operators within the different EU states.

If you consider it appropriate, we would contact your secretariat in order to schedule such a meeting.

Best Regards,

  
Enric Tico  
President
